began to ask myself what 20:200  
began to ask myself what they could be. Were they intelligent mechanisms? Such a thing I felt was impossi-  
ble. Or did a Martian sit within 113:200  
began to ask myself what they could be. Were they intelligent mechanisms? Such a thing I felt was impossi-  
ble. Or did a Martian sit within each, ruling, directing, using, much as a man's brains sit and rules in his body?  
I began to compare the thing to human machines, to ask myself for the first time in my life how an ironclad or  
a steam engine would seem to an intelligent lower animal. This Is My Amazingly Long String To Make Your
